

Signs to watch for towards the Start of the Tribulation

William J.D. Shaw updated: Nov 10, 2021

1. Introduction

The Bible tells us first generally how the world changes as the Tribulation approaches. People become more and more evil, angry and hateful. Love in many grows cold. Lawlessness grows quickly throughout the world. Earthquakes and volcanic eruptions become more frequent and in a wider range of locations. We need to watch for the formation of the One World Government and the One World Economy.

The Days of Sorrow become more severe as the time of the start of the Tribulation draws nearer. The White horse is a righteous Nation that keeps evil in check and today it is fading while the Red horse of wars and taking peace from the world is increasing. The Black horse is just appearing which is famine and the Pale horse which is death has not as yet appeared. The combination of the Red, Black and Pale horses will continue together to grow in their effect in killing people and making life more and more difficult as time evolves. The Bible tells us that just before the Tribulation starts the entire world population will be reduced by 25%. That means that roughly 2 billion people will be killed by the three horses, which in fact are the first three plagues of God sent upon the world, occurring in the Days of Sorrow. Note that God's people are not protected until just before the fourth plague that occurs at the start of the Tribulation period. We are not told of the time duration occurring through the times of Sorrow. That means we need to watch carefully for various signs in order to obtain a rough feel as to the length of time left before the start of the Tribulation. Recognize that the wrath of God is here now and has started to come down upon the whole world. The wrath of God is also called the Days of God and it has been continually told throughout the Bible that it will come upon the world in the end times. We are now living in the end times.

We need to watch and recognize God's wrath as it comes upon the world and what scripture tells us of the times of sorrow in order to obtain a feeling as to how close we are to the start of the Tribulation and to correct ourselves if we are not walking according to God's way.

To summarize in general terms:

1. People become angry, hateful and evil grows
2. Lawlessness grows throughout the world
3. Deception and false teachers grow.
4. Increase in earthquakes and volcanic activity
5. Peace being taken from the world
6. Increase of Famine and cost of food
7. Increasing of Wars
8. Ezekiel's war
9. Major increase of death throughout the world from war, famine and disease
10. Formation of One World System, everyone forced to accept the One World Economy right at the start of the Tribulation

11. A seven year pact of protection with Israel coming into place right at the beginning of the Tribulation

Today we see peace suddenly being taken from the world with anger and hate and evil growing throughout the world. There are earthquakes and volcanic activity has become more prevalent. We see false teachers, we see lawlessness recently rise up throughout the entire world, it appears that famine is just starting as a result of weather changes and we continually have wars throughout the world and major ones appear to be on the verge of increasing. Recognize God controls the weather and the world.

2. Important Milestones coming

The Bible gives us some information that we cannot miss that will occur prior to the start of the Tribulation.

The first indicator is that peace will be taken from the world. We currently are two years into experiencing this and it continues to grow. No one would have ever thought it possible in our free and prosperous world that it could be turned upside down so quickly. Hatred is growing and dictatorial governments are enforcing draconian measures with logic and rational thinking being thrown away.

A second indicator will be growing and severe world wide famine. Crops will be failing due to drought, fire, flooding and insect behaviour. Possibly fertilizer shortage or cost, supply chain breakdown and also government policies. It appears this has initially started.

A third general indicator will be cumulative world population deaths as these will dramatically grow over time, accelerating towards the start of the Tribulation. The crude graph below shows what to watch for along with a perspective of normal world conditions of death and births. The current world population is approaching 8 billion, therefore $\frac{1}{4}$ of it will be roughly 2 billion deaths ahead of the start of the Tribulation.

A fourth indicator will be one of a specific current day Church being persecuted throughout the world starting three years before the start of the Tribulation. The most likely Church to first be singled out for persecution will be the Seventh Day Adventist Church as a result of its high profile and being identified as keeping the seventh day Sabbath and also keeping the ten commandments.

Fifth is the occurrence of Ezekiel's war where specific nations come against Israel and God intervenes using natural catastrophic occurrences to protect Israel. This can take place anywhere from roughly 7 years before the start of the Tribulation up to and just before the Tribulation starts.

The deaths today from Covid 19, is roughly 2 Million, these are generally insignificant compared to first the normal yearly world deaths of 60 Million and especially in comparison to the 2 Billion deaths that are coming before the start of the tribulation. The growth rate of deaths will grow exponentially as the Tribulation approaches. In other words things will accelerate in

The effect of the covid-19 is acting towards bringing about an accelerated move towards the establishment of the One World Order along with the One World Electronic Economy and One World Religion. Take a look at China's move towards electronic currency and other nations that are considering and trying it. A reset economic world conference was scheduled for early 2021 by the major world nations with whatever that will entail, likely for one thing the use of electronic money only, no longer cash transactions. It appears that the current USA administration is trying purposely to crash the dollar in order to bring about electronic money controlled by governments. Yes a monetary world reset.

When you see the Jewish temple being built in Jerusalem, it will likely be too late as that will generally occur after the Tribulation is under way.

Recognize that scripture tells us that the times of Sorrow with its 3 plagues are just a warm up of what is to come during the 7 plagues of God that occur through the Tribulation. Scripture is directed to all people calling them to change and walk forward in obedience to God before it is too late. There is no way anyone would want to go through the Tribulation, it will be much worse than anytime of disaster in the past. We are to watch and pray always. Time to change is becoming very short. Currently it is starting to appear that we are roughly 3 to 5 years to the start of the tribulation. We are warned many times in scripture of the coming Tribulation, and to change ourselves properly before it is upon us and it is too late. One of the powerful warnings is given in Malachi Chapter 4 addressing those approaching the "Day of the Lord", the main warning is given in the following scripture.

[Mal 4:4](#) Remember ye the **law (Torah)** of Moses my servant, which I commanded unto him in Horeb for all Israel, *with* the **statutes** and **judgments**.

**
