

The One World Government – likely Scenarios

William J.D. Shaw Major Update: Feb 6, 2022

Continued study of God's word, shows one more and more and now over time this document needs a major update. New in depth understanding that has been gained, it changes the original scenarios that were put together 2 yrs ago.

The following is based upon visualization and reflection of the most likely way things will unfold in the end times. The Bible is accurate in prophecy and is used as a basis of establishing specific milestones and outcomes of the future as it leads up to and through the Tribulation period. As continued study is carried out more truth comes to light from scriptures that initially did not seem to mean much and was not recognized in understanding. As one learns and matures, many scriptures give more and more understanding and information. Recognize the scriptures are God's word, they are truth.

This document is also based upon human nature and man's history through time and the state of technology today and how it will change in the future as based upon what is given to us in scripture. One may not agree with the following, but it should make one think and evaluate how they think the future will unfold. If you do not use the Bible as the main guiding principle, you will be wrong.

1. Formation

In order for a One World System to come into effect it must be bought into or accepted by the major powers of the world, the world's richest countries. In order for this to happen it must be sold to the people in these Nations, by promising them a better standard of living and a promise of fixing world problems.

It will be the Democrats in the USA and the Liberals in Canada that will in North America be pushing this acceptance, they will be the ones promoting this change or better described as a world reset. There is a major danger, especially in the USA that a civil war will take place. It may carry over into Canada in joining in. However for the most part the outcome will be the same whether or not civil war occurs, the One World Order will succeed in coming into place as it is based upon Bible prophecy (Rev 13:17).

This leads to God's test for all mankind, it is coming upon the world in the end days. The end days are the days of God's wrath coming on the whole world and the second coming of Christ. These are defined in Bible verses. Those opposing the One World Order will need to either accept the system at a critical point in time or try to flee, hide and live off the land and go forward by bartering. It is likely only a few of those in the Churches will come to understand what is happening, they will most likely try to inform others and their ranks might grow within a very short

period of time. The lukewarm Christian Church people will fall away as well as those Christians that think they are entitled to the good life. It is these Christians who walk in compromise and will continue to walk in compromise that will take the mark of the beast, as well as most all others throughout the world, that are secular or non Christian.

Once the One World Government has come into ruling, at first it will appear democratic, however it will quickly become a dictatorship, transforming suddenly into a police state. It will quickly not tolerate opposition in any form whatsoever, it will try to rule with a very tight reign and will not be subject to human rights or any other Nations objections. Total loss of human rights will come into place very quickly. However enforcement will take place for a very short period of time, as once the Tribulation is announced by God, things will quickly change.

The same system will run through Europe, South America, Africa, Australia, Asia, Russia, China, India and the Middle East. Any countries that do not join will face a major isolation. This will likely occur in conjunction to civil war starting in some of these other countries. All of this will occur prior to the start of the Tribulation period, likely a year or more before. It will take place through the latter time of sorrows and be fairly close to the beginning of the seven year Tribulation period.

Once the One World Order is under control and reasonably operating along with the One World Economic System it will also lead to one other major change. This will be a One World Religious System, being called a Unity Religion. This religious system has already started under the leadership of the Catholic Church. It will most likely require all people to worship on Sunday.

All people will be required by law to register in the One World Economy, which is the same as taking the mark of the beast in order to be able to buy and sell. This is the trial or test or temptation of God that comes upon the whole world, this choice of taking or rejecting the mark comes just before the start of the Tribulation period. People that accept the New World Order will be marked or tagged in such a manner that there is no way of hiding an individual's identity, or counterfeiting your identity. The Bible is clear in telling us that if you take the mark of the Beast you are lost in having salvation. At no time in History could this degree of control be implemented throughout the entire world. Computers, nano technology, satellite surveillance and facial recognition combined with artificial intelligence , AI, make this amount of control of the world population a reality in today's time. Considering the integration of data bases, for personal identification, to banking, to land titles, to land tax records, to corporate registries, to vehicle registration, to drivers licences, to medical records, to school records, to social systems, to income tax, to consumer spending and preferences, to internet use, to telephone numbers, to marriage licences, to birth and death certificates, to pet licences, to subscriptions as well as credit information and to pensions and investments. There is not much information that is not known about each individual especially when integrated into one huge all inclusive data base. In the past there has never been technology of identification and control of individuals as there is in today's time. This One World System is evil and the Bible tells us that people will become more and more evil as it comes into place and unfolds, both up to and through the Tribulation period. Hatred towards others will grow to a major degree. The love of many will wax cold.

The crash of the US dollar will be the final trigger for the great reset, and result in the establishment of a one world digital economic system. This will be accompanied with the marking or tagging of people.

2. Operation

Under the surface, the One World Government will in fact be a dictatorship, a brutal police state not accepting any criticism or protests. This will not be recognized until it is too late. It will be run by an elite group, at least initially, being comprised of some select ultra rich. Once established with a major World Army, it will most likely evolve quickly into a ruthless dictatorship ruled by Army Chiefs and the ultra rich will be disposed. There will be no reason to keep the ultra rich in place when rules are completely changed and it will be the ruthless and physically strong and power hungry that will end up ruling.

History has shown us time and time again how this occurs. Hitler did not succeed, but this new One World Government approach will succeed in rising to a position of controlling the entire world as a result of God using and directing it to do His will. It will most likely end up being a confederation of ruling dictators in each major and powerful world country, or conglomeration of countries, ie Europe, America, Russia, and China.

Initially everything will be dictated and controlled with a underlying unity. At the start, the economic system will be entirely electronic, controlled by a One World Government internet and computer system. The paper money system will disappear. The economic system will likely establish production quotas and operations of economy products co-ordinated throughout the world. The religious system will require people to worship a specific person, on a specific day, most likely on Sunday. The Government will dictate laws and rules and will keep strict order and not tolerate any protesting. However all this takes place only for a short period just before the start of the Tribulation, as announced by God.

Once the Tribulation starts, things will change suddenly and drastically, most likely with the loss of all infrastructure including electricity, internet, GPS, various services, and very significantly the loss of petroleum based fuels. Examine the recent document for further insight, “ *Possible End Time Scenarios*”. It covers the possible scenarios that will likely occur. Based upon close examination of scripture there will be a sudden change in technology that engulfs the entire world. It could occur either almost instantaneously or rapidly and progressively, tied to the start of the Tribulation. We tend to think in terms of present technology when looking to the future, not expecting that it will be removed as the Tribulation unfolds. This document is changed to reflect this new way forward into the Tribulation, based upon scripture. In the times of sorrow ahead of the Tribulation, current technology is in place and drives the world forward. These are the days we are presently in, with three plagues of God coming upon the world. These being, peace being taken from the world, famine, and third great death (Rev 6:3-8). Current technology is removed quickly or progressively diminishes as soon as the Tribulation starts, creating a very different world.

The world will suddenly reel being thrown back in time, survival will become the dominant focus or way forward throughout the entire world. The One World System itself will suddenly be

struggling to survive, the same as the world populations. Famine and disease and death will continue to increase. Within the Tribulation period, life will become more and more difficult for the survival of people. This will be amplified by the loss of technology that man came to depend upon. Each plague in the Tribulation will become progressively more devastating and one plague follows another for a 7 year period with no relief.

The effect of all of this is that the One World Government will struggle in its attempt to exert control over the different nations and their populations. There will likely be some small degree of rebuilding of society in a few locations throughout the world. It is unlikely that much in the way of Law and Order will exist throughout the entire world. Famine and the struggle to survive brings with it lawlessness. Without current technology, that is wholly dependent upon electricity, how long will society or ammunition last ?

Famine continues to become worse and worse as the Tribulation unfolds. It is likely that all methods of current day transportation will cease. That would result in scattered pockets of people throughout all Nations. Everyone will be struggling to survive. Communication will be limited or virtually disappear. Without electricity communication goes back to a horse and rider.

Looking at the progressive build up in the days of sorrow ahead of the start of the Tribulation, the world will experience a taste of what is coming, it leads into the Tribulation where things become more severe. Stated another way, the three plagues in the times of sorrow affect the entire world as sort of a warm up as to what else is coming once the Tribulation begins.

The three plagues have drastically changing weather creating fires, droughts, flooding, earthquakes, volcanic activity, war, famine and tremendous disease. In addition to peace being taken from the world and famine, during this time $\frac{1}{4}$ of the population of the earth will be killed. This is from the accumulation all of all three plagues acting together in a progressive manner. The death toll will start small and continue to accelerate as the start of the Tribulation gets closer. That means over a few years nearly 2 billion people will die before the start of the Tribulation. Famine, disease and death will continue into the Tribulation period. Life becomes much more difficult once the Tribulation starts since the level of disaster becomes much worse.

Once the Tribulation starts money will suddenly not have any value, all electronic money as previously set up will suddenly disappear. All people will go forward by barter. The promises by the One World Order will collapse and its way forward will not be fulfilled, it will basically fall apart.

Those that are God's people will have some reprieve from the devastation as they are protected from the plagues. The severity of God's plagues coming upon the whole world and the extremely large number of the world's people that took the mark of the beast will have the entire world struggling to survive. Only God's people that are marked by Him are protected from the plagues, but not from other people in being persecuted and attacked. Only those that know the Bible will understand what is occurring as the plagues come upon the world. Most others will at times think the world is coming to an end. God's plagues are so severe that even for those recognizing what is happening, it will be hard to imagine the extent of the devastation and the disheartening effect it will have on the moral of individuals.

3. Start of Tribulation

Those people that have rural land and are living in the country will be better situated to survive. Those that have not taken the mark of the beast will be mostly Christians and a very few other stubborn and obstinate people. They will be the ones recognizing their only way forward is passing through the Tribulation as best they can. These Christians will be protected by God from the wrath that He brings upon all the world, from the fourth plague forward, but will not be protected from persecution from the rest of the surviving population. This wrath from God comes upon all those that have taken the mark of the Beast. The wrath of God is progressive through the Tribulation period with plague after plague coming upon the whole world. The Plagues progressively become worse and worse. This in fact will give the Christians a large amount of relief from persecution over the Tribulation period, since others will be experiencing the full effects of the wrath of God coming upon them in a continuous manner and just struggling in order to survive. Those of God's people will need to gather together in rural areas and farm. They will be able to be out in the fields working in the open and not having to deal with meteorites raining down or other plagues. Strength in numbers will help them survive. Since transportation is very limited they will in fact be fairly isolated for their survival. They will not be able to survive in a city that is rebuilt.

The One World Government will also be struggling to keep things together while they endure the plagues and will be very limited and due to sudden absence of electronic communication likely fall apart. They will have lost present day technology and suddenly be living in a very different world, forcing them to try and survive along with everyone else.

However those in Israel during the last three and a half years will be severely persecuted, but some of them will be able to flee to a place of refuge provided by God. In the last half of the Tribulation period evil will exponentially grow and be unchecked. Recognize that 7 years is a long period of time to be able to survive by bartering. Only by co-operation between Christians in working together will they be able to survive.

In the last three and a half years of the Tribulation, near Israel there will be a place of refuge and protection for God's chosen people in order to endure until Yeshua returns, provided they are able to make their way to that place. Since the Bible is directed mainly in telling us what happens with respect to the Israelites, we are not told if there will be places of refuge in other countries. Throughout the world travel for all people will be severely limited to walking or horse back. Most likely there will be no international travel. Logic would indicate it is quite probable that places of some amount of refuge will exist in all countries throughout the world over the duration of the Tribulation, at least to some degree. It is most likely that those that put their trust in God will be watched over by guardian angels. There must be some balance in what God expects us, his people, to do if we are passing through the Tribulation, compared to what He will do. There are a lot of unknowns as to how things will unfold for those not taking the mark of the beast. Faith and trust have always been the main way forward and are expected of us by the Father. We should not be consumed with how we might survive; rather we should consider how we will be able to help our brothers and sisters in Christ that have to go through the Tribulation. We ourselves need to continue our walk on the narrow path God lays out before us. If those that have rural land are able to keep their land, then other Christians that do not have land will need to migrate and join with

these others of like mind that do have land. Then they will need to work together in unity in order to survive.

At the end of the Tribulation, the main and worst portion of the wrath of God will be poured out undiluted on the whole world. Those that are evil will be destroyed, those with a good heart will be spared. Yeshua will return with power and first collect His saints, then set up the Millennium Government of God on earth. He will rule from Jerusalem for the thousand year period. It will then be an era of peace and prosperity over the entire world. Righteous and justice in law and order will be forced upon all the inhabitants of the earth. Many will accept this willingly and joyfully, many others will accept it grudgingly since their ability of free choice has been taken from them and they will be forced to live under God's laws and not go their own way.

If you are passing through this time period of the Tribulation, there is only one way forward, **Trust in the Lord**. Go forward joyfully, thankfully and with patience. Keep your faith strong and follow God's commandments and always go forward with prayer. Keep your Bible close. You must make the correct choice before the Tribulation starts in order to be given eternal life.

[Rev 13:10](#) He that leadeth into captivity shall go into captivity: he that killeth with the sword must be killed with the sword. Here is the patience and the faith of the **saints**.

4. One World Order Begins as Driven by Economy

At the current time the world is given a wakeup call with the covid-19. It is not very deadly in those it kills in comparison to what plagues are coming in the fast approaching end times. However in terms of the integration of world economies and the large increase in population and city sizes, it has a much greater financial effect now days than what it would have had in times past. The mortality rate of covid-19 appears to be similar to the Spanish flu that ran through the world in the early 1900's. However, now the economic effect is much greater with this virus and the world's response to it. It has started with taxing the health care system in each world country, and it quickly grew in effecting other industries. The airplane and travel industry were affected, followed closely by the tourist industry which includes hotels, tour companies as well as cruise ships. In addition the sports industry and all public gathering events including concerts, schools and office and factory workers have been affected. Public Transportation, restaurants and all other service industries where exposure to a number of people occurs have been affected. In other words there are few industries that have not been affected.

How long can self isolation be used without having a drastic effect on the economy of every specific country or Nation, as well as the sanity of people ? There will also be a large and continuous absence of sick workers so that even isolation will not be effective in the long run.

Consider now for any Nations economy, the absence of workers for steady uninterrupted production and the distribution of goods as a supply chain throughout the world are all affected. Governments will struggle to fund the health care system and to prop up their economies, while at the same time experiencing a reduction in their tax base. A new system of electronic money does

not need to have any hard or real identifiable assets that are backing it up. Even paper money today has the same basis of backing, it all comes down to a person's trust in their government and the relationship of each Nation to other Nations. If the major Nations band together, they can set up an allocation system of electronic money between themselves and hence the integration of a One World Economic System. It appears that the pandemic of the covid-19 is having a major effect in starting the world to move quickly in this direction.

In a pandemic nearly the entire population will suffer in lost wages and ability to pay monthly living costs. Those with small independent run companies will be exposed to the downward economic effect more than most, many will go out of business. Generally the standard of living throughout the world will decrease. The world is on its way towards a world wide depression and you need to recognize that the plagues in the days of sorrow have only just begun. We have not seen anything or experienced even a little of the severity of what is now starting to come upon the world. The world governments are printing money like it is going out of style, the US is leading the world in this and attempting to destroy the Dollar in order to cause a new monetary reset, one of electronic money. Once this take place, it will be in operation for a very short period of time. Once the Tribulation starts, it is highly probable that there will not be electricity and therefore no internet or electronic monetary system. Other major changes will also come into how people will go forward in a focus upon survival.

In Revelations as well as from other prophets we are told at the end of the Tribulation that Nations are coming against Jerusalem. They are coming with horses and not with modern war machines. The question then becomes does this change occur, either suddenly at the start of the Tribulation, or progressively over the Tribulation. Scripture would appear to have the change occur suddenly due to the terrible devastation that comes upon the world early at the start of the Tribulation. Generally man will suddenly find himself trying to survive without the help of technology that has been used, and taken for granted, all throughout the world in today's time. Life will revert back to pioneer life in America and be the same throughout the world.

Unfathomable drastic changes are coming and will occur quickly once the Tribulation starts. The loss of energy that is driving the technology of today will disappear. The plagues of God will continually become more severe. All of mankind will be thrown back in time to before the steam engine. It will be like the times of early pioneers in America.

Currently there are literally a few years before the Tribulation starts. Enough time to change so that you will not have to go through the Tribulation. God's word on how to walk forward is clear, but you must be able to first open your mind and second be able to read in proper context and accept what is shown to you. In Noah's time all were walking the wrong way except for Noah. The Bible tells us these days are like the days of Noah. Nearly all the world, including the six mainstream Christian Churches of today, are walking the wrong way. Deception is a major problem. Do not listen to what mans says, use only Bible scripture.

The letters to the Churches by Christ, in Revelations, tells all six mainstream Christian Churches to repent and change in their way of walking forward while there is still time. Repent, change and walk forward in God's Laws before the Tribulation starts. Time is becoming very short.

**
