

An Update on Prophecy Documents

William J.D. Shaw Updated: Mar 23, 2022

This document is for those that cannot follow the analysis process used in coming to understanding and assembly of all the prophecy documents. That previous process uses scripture and correlations and was developed being led by God's spirit.

Currently, other scripture has been opened and is an easier and more direct approach to the analysis of end time prophecy. This document gives you those scriptures.

First read Rev 15:1 and Rev 21:9. Read these very carefully and think.

Second read what takes place between the breaking of the sixth and seventh seals in the book of Revelations. Can you find anything in this section that correlates to Exodus from Egypt ?

If you are able to read and think, you should now be able to put the end time plagues together and see what is occurring in today's time.

In addition if you read Revelations very carefully on the 7 trumpets and the 7 vials, you should be able to understand the differences and the inter-relations between these two actions. But again you need to be able to read and think.

Today, Bible prophecy from 2000 years ago is unfolding before our eyes and unfortunately few can recognize it.

Read scripture carefully and follow only scripture, all scripture has meaning and was given for a purpose.

The only doctrine one is to follow is that of the Complete Bible itself. Not doctrine put together by Man.

Let go of your preconceived ideas and what others tell you, everything must be supported by scripture. All scripture is given to us by God, all scripture is Truth.

Shalom
