

End Time Third Plague

William J.D. Shaw Updated Nov 1, 2022

1. Introduction

The “**end time**” is defined in the Bible as the time that God’s wrath comes down upon the entire world. It is generally taken as the Tribulation period, but it starts prior to the Tribulation, occurring first in the times of sorrow.

The wrath of God are seven plagues during the Tribulation period and a number that occur prior to the start of the Tribulation. We are told this in the following two scriptures.

Rev 15:1 And I saw another sign in heaven, great and marvellous, seven angels having the **seven last plagues**; for in them is filled up the wrath of God

Rev 21:9 And there came unto me one of the seven angels which had the **seven vials full** of the **seven last plagues**, and talked with me, saying, Come hither, I will shew thee the bride, the Lamb's wife.

Through the Book of Revelations there are seven trumpets that announce each of the seven plagues, and the vials contain the seven plagues that are poured out on the world. So we are told that there are some number of God’s plagues that occur before the Tribulation is announced as starting.

Looking back at Egypt and the time God’s wrath was poured out on the Egyptians there were 10 plagues. God’s wrath has been poured out in a limited manner at various times throughout the Bible, but never in a steady sequence of a number of plagues, one following the other and the full wrath being felt. In the time of Egypt the Hebrews were calling to God to help them. God responded by taking the Hebrews out of Egypt which that Nation was identified as being evil. It was the time that God’s people were taken out of evil and were freed. The Nation of Israel was established by this action. The Israelites were saved and were to walk in God’s Laws, they were to be His people and He was to be their God.

Close examination of the action of these plagues shows us God’s people in Egypt were not protected from the first three plagues. They experienced these first three plagues in the same manner as the Egyptians. However just before the fourth plague God’s people were protected from the plagues. This protection extended right up and through the remaining plagues. Thus god’s people were protected over the 7 remaining plagues.

Counting the number of times in scripture, throughout the Bible, that God tells us he took the Israelites out of Egypt with His strong arm and strong hand, it is overwhelming. We are told over 100 times of this action. When the Bible tells us once, it is important, when it tells us 2-3 times it is very important, when it tells us many times it is extremely important. God stressed the importance of this action in Egypt to us. Because of this one should look to see if there is a possible correlation to the only other time a sequence of plagues are brought down upon God’s people in relation of being taken out of an evil world. The end time is this other event.

Yes the correlation exists. The Tribulation starting is announced by God at the breaking of the sixth seal in Revelations. Right after that announcement God's people are sealed so they are protected from the remainder of the plagues that God continues to bring down upon the evil world. The first plague of the Tribulation then really becomes the fourth plague. This means we are to look for three plagues before the Tribulation starts. This parallels what occurred in Egypt.

We work our way backwards with the breaking of the seals. Note that these seals are broken in Heaven by Yeshua (Jesus). The breaking of the fifth seal is important information but is not a plague. The breaking of the fourth seal is a plague, the one this document is addressing. The breaking of the third seal is a plague. The breaking of the second seal is a plague. Now we have the three missing plagues. The breaking of the first seal is not a plague, it is essentially an introduction of world events leading up to the start of the wrath of God, the start of the times of sorrow.

Careful reading tells us once each of the three plagues start, each continues up to the start of the Tribulation. That means as each of the other two plagues join with the first plague they all continue together right up to the start of the Tribulation. This means the wrath of God continues to build and become more severe as time goes forward. The action of the first two plagues add to the action of the third plague.

The first plague is described in the following scriptures.

[Rev 6:3](#) And when he had opened the second seal, I heard the second beast say, Come and see.

[Rev 6:4](#) And there went out another horse *that was* red: and *power* was given to him that sat thereon to **take peace from the earth**, and that they should kill one another: and there was given unto him a great sword.

The first plague is peace being taken from the world. This is currently well under way, it started late in 2019 with Covid-19 along with the mRNA shot and the uniform response taken by nearly all world leaders and Nations. Since then peace being taken from the world has grown with War of Russia and NATO, and the threat of nuclear destruction. There are major demonstrations throughout the world, it is likely these will turn violent in the coming year. These events will continue to grow and become worse each year. The green movement is affecting energy availability in a major way and will promote death and uprising. Fuel availability for transporting goods and for farming is being curtailed. All of these continue to grow in promoting peace being taken from the world.

The second plague is given in the following.

[Rev 6:5](#) And when he had opened the third seal, I heard the third beast say, Come and see. And I beheld, and lo a black horse; and he that sat on him had **a pair of balances** in his hand.

[Rev 6:6](#) And I heard a voice in the midst of the four beasts say, **A measure of wheat for a penny, and three measures of barley for a penny**; and *see* thou **hurt not the oil and the wine**.

The second plague is famine, food costing a days wages. It tells us that the angles creating the plagues will not hurt the olive trees or the grape vines. These are drought resistant and suggest that erratic weather of drought will become prevalent throughout the world. This will severely affect crop producing areas. Severe drought affects rivers and reservoirs. Barges that transport food and other products via rivers are affected. Fertilizer that is needed to produce food is being affected.

Forest and grass fires become more common. Volcanic action affects sunlight for growing. The culling of chickens and the burning down of food processing plants, all act together in having famine come upon the entire world. The lack of nutritional food in turn promotes disease.

These first two plagues are well underway, and they are interactive as they amplify the effects of death and destruction of people and destroy the infrastructure of this world. The third plague will be added to these first two and all three will continue to become worse and worse in their effect as time evolves. This action of the beginning wrath of God with the first three plagues will occur right up to the time God announces the start of the Tribulation, the breaking of the sixth seal.

2. The Third Plague

At this time the third plague has just barely begun. The third plague is described in the following scriptures, it is the breaking of the fourth seal.

Rev 6:7 And when he had opened the fourth seal, I heard the voice of the fourth beast say, Come and see.

Rev 6:8 And I looked, and behold a pale horse: and his name that sat on him was **Death, and Hell** followed with him. And power was given unto them over the **fourth part of the earth**, to **kill** with **sword**, and with **hunger**, and with **death**, and with the **beasts of the earth**.

This plague is one of death and hell, it is death caused by the sword along with famine and the beasts of the earth and also disease. Note that famine and war of all kinds, results in lowered personal immunity and larger amounts of disease. The first plague is combined with the second plague and results in larger and larger amounts of death as time inches towards the start of the Tribulation. All three are acting together and a quarter of the world population will die by the start of the Tribulation.

This amount of death occurring is roughly 2 billion people. To put this in perspective it is 2,000 million people. Before the plagues began the world death rate was very stable year to year at 60 million per year and predicted by the WHO to grow extremely slowly by 1 or 2 million per year over the next 5 years. Hell follows death, considering how evil the entire world has become, it makes sense that the large number of people dying will be evil people.

Life is continually going to become more and more difficult as we go forward from this current time in which God's people are not protected from the plagues.

3. Possible Timing

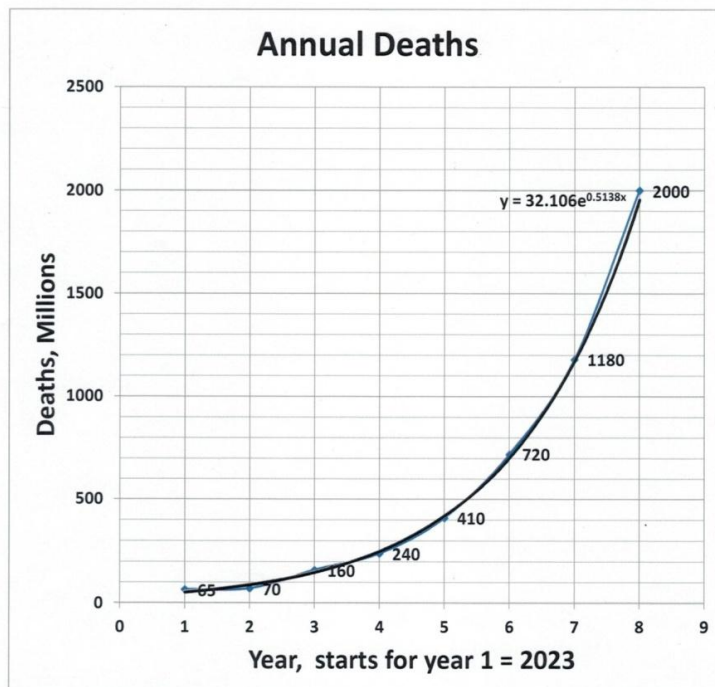

Currently the mRNA shot is resulting in a growing death rate in the Western countries. It is seriously affecting life insurance companies as the number that are dying are a way higher than predicted from their mortality charts and deaths appear to be growing worse as time progresses, well beyond what would be deemed as normal. These life insurance companies will likely go

bankrupt and life insurance will be thing of the past. More and more information on long term effects of the experimental mRNA shots in causing death continues to become known every passing month. Circulatory problems and cancers are on the top of the list and appear to be growing more and more with time. Clots in the arteries and veins from a white stringy type of protein are occurring found in many that are being embalmed. These are not blood clots and do not respond to treatment with any of the blood thinners used today. Sudden adult death syndrome, SADS, is occurring in young normally people. It appears that a large contribution to the growing deaths of the third plague will be supplied in the Western Nations by those that took the shot. Famine will likely supply most of the deaths in the third world Nations.

The lack of energy in Europe from the loss of Russian natural gas will result in deaths, and not just protests but violent uprisings and chaos. This will be amplified by a cold winter and the cost energy and of food in the rich Nations and an absence of food in the poor Nations. The rising costs of energy, food, and fertilizer all lead to a breakdown of society's engine of manufacturing, transportation and the coming inability of Governments to supply the basics required for life. This will lead to anarchy throughout the entire world. For a varied number of reasons the death rate will accelerate and continue to do so.

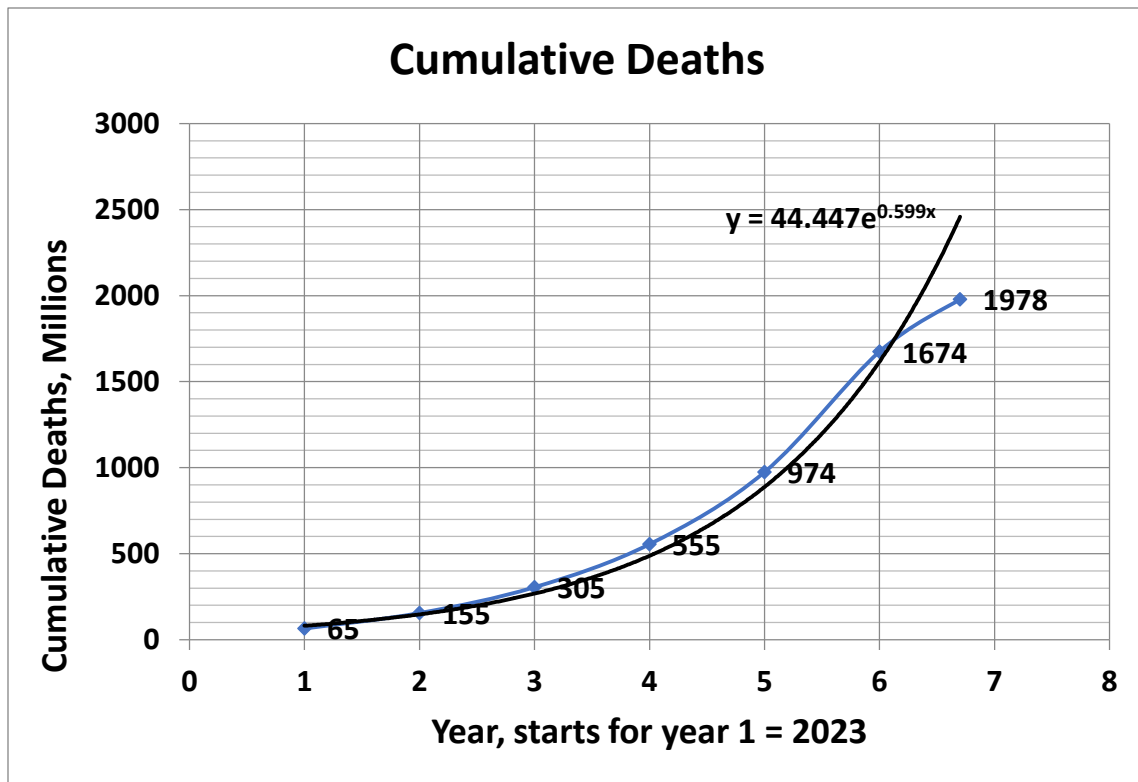

From what we are currently witnessing with the growth of **“peace being taken from the world”** and the start of serious **“famine”**, the increases of **“death”** will start growing slowly and then begin accelerating. It will likely follow an exponential mathematical growth relationship. It will be a cumulated death reaching 2 billion just prior to the start if the Tribulation.

Based upon the timing in the start of the first two plagues, it is likely that the time to the start of the Tribulation could be as short as four more years or as long as six more years from the start of 2023. For the rough prediction of the time and death relationship an exponential graph of annual deaths is developed giving roughly 1,000 million deaths in year 7 period. This is done in order to develop a second follow up graph of cumulative death of rising to 2,000 million in roughly 6 years. The first graph of annual deaths is as follows. Year 1 is set as the year 2023.

If fewer years (higher deaths) appear to be occurring then the horizontal axis can be adjusted by shortening, alternately if the opposite occurs it can be adjusted by lengthening . This graph as developed is useful only up to 6 ½ years as the cumulative death will then exceed 2 billion people. Note that in year 3, 2025, a prediction of 160 million deaths is made. These are world wide deaths, usually tracked as statistics by the WHO. This year of 2025 will give feedback as to whether more or less annual deaths are occurring. It will help to establish how accurate or inaccurate the first graph is predicting the effect of the third plague.

The second graph is developed using the information from the first graph. It gives cumulative deaths according to specific years from year 1 being again set as 2023. This graph is also exponential. This graph is used to establish the relative time of the start of the Tribulation, based upon the time a cumulative death reaches 2,000 million. As time goes forward, if the first graph is found to be accurate, then the second graph will be accurate as well. The second graph of cumulative death is given as follows.

The graph shows a blue line of data calculated from the first graph, while the black smooth line is an exponential best fit. The values given on this graph are the values calculated from the first graph. This second graph shows that a cumulation of 2 billion people will die by approximately 6 1/2 years from 2023.

This graph gives a very approximate rough time and can be adjusted for shorter or longer times by adjusting the years on the horizontal axis. However, it tells us that very few years remain before the start of the Tribulation. It also tells us how much more difficult life will become each year that goes by. If in 2 years, 2025, the worldly death toll is around 160 million, the graph is

generally accurate. The statistical figures for 2025 will generally not be available until a half a year to a full year later after gathering the data.

4. Summary

We are currently walking in the end times, there are many signs in the scriptures that tell us how to recognize these times. The Bible tells us what to watch for as occurring with the Tribulation and that combined with the times of sorrow. It is a repeat of the Exodus of the Israelites out of evil Egypt. A second Exodus is now underway, one of God's people taken out of the evil world. Solid correlations exist between Egypt and today's time.

There are ten plagues, that are the wrath of God coming down upon the entire world. These started two years ago and the first two plagues are underway and growing in magnitude or severity and will continue to do so for a number of years yet to come. The tip of the third plague is just starting. We have very few years to the start of the Tribulation. The first graph of yearly deaths will give us an indication of the accuracy or lack of accuracy of the prediction. The timing of the fulfillment of the third plague can by using the second graph give us a very rough relative time that remains before the Tribulation starts.

The time is so short, if you are not walking correctly with God, change while there is still time. God's word is clear on how He requires us to walk, get rid of preconceived ideas, pray and accept what is shown to you. We are told today is just like the times of Noah, the world completely oblivious to what God is bringing down. Unfortunately this way of walking today, is the way those walked in Noah's time, and today it applies to both Heathens and Christians.
