

Further Insight to Likely Start of Tribulation

William J.D. Shaw Updated; Aug 19, 2023

If you took the mRNA gene therapy shot as well as not been able to identify that you are walking in the end time with the plagues of God currently well underway, then you are walking as described in God's word, walking as in the times of Noah. This means you really do not know God's word. This in turn means that this document will have absolutely no meaning to you.

1. Introduction

The end times are well defined in God's word, specifically as given to us by Yeshua (Jesus). There are many signs that we can recognize occurring in today's world and therefore know that we definitely are in the end times but nothing that identifies exactly how close in a time of the number of years until the start of the Tribulation. Note the start of the Tribulation is the critical milestone, not the midpoint of the Tribulation.

First one must realize that the collection of people at Yeshua's second coming is for the Saints only. Those in the six mainstream groups of Christian Churches of today are not the Saints. Those in the churches will be tested and if they pass God's test they will become one of the Saints by going through the Tribulation. Very few of those that call themselves Christians will pass the test considering its severity.

We are clearly told that the Tribulation is seven years long with seven plagues. The following two scriptures are of major importance, Rev 15:1 and Rev 21:9, in these we are told to look for some unknown number of plagues that have occurred before the Tribulation plagues start. When we do this, one finds three plagues making a total of ten plagues of the wrath of God in the end time. This is the same number of plagues the Israelites experienced in the Exodus from Egypt. Other correlations exist with the Exodus and the End time Plagues, one other most important one being the sealing of God's people, that pass the test, just before the fourth plague, which is the first plague of the Tribulation. There are other correlations besides these two. Understand that the theme of the second coming is totally different from that at the time of the Exodus.

The time duration of the initial three plagues is not given in scripture. Their occurrence is however the period of the major times of sorrows that lead directly into the start of the Tribulation plagues. Once the first three plagues are identified from scripture, one should be able to recognize that the first plague started early in 2020. This tells us we are extremely close, in terms of very few years remaining to the start of the Tribulation.

Very few Christians, including pastors, will have had end time prophecy opened to them. Scripture tells us that nearly everyone will be walking as in the times of Noah, totally unaware of seeing God's hand at work with prophecy being fulfilled and the closeness of Yeshua's second coming. Rather they walk thinking they have a long regular life ahead of them, planning their future as best they can and that Yeshua's second coming is a long way off in the future.

End time prophecy is extremely well hidden with built in obstacles and it is very complex. It is found in verses with clues scattered throughout the entire Bible. Unless one walks in the Torah, truly follows Yeshua and passionately studies prophecy they will never come to understand end time prophecy. Even then one needs guidance from the Father's spirit to come to an understanding in overcoming the various road blocks along the way.

2. The First 3 plagues

The very first end time plague of God is that of **taking peace from the entire world**. One normally thinks of this as war between nations and possibly a world war III. However it started with covid-19, all the major nations reacted in unison with lockdowns, masks, social distancing and pushing fear of an unknown disease and death. It evolved into coercion of people having them taking an experimental gene therapy shot, mRNA, where it was pushed as being totally safe. But in reality there were adverse unknown effects occurring both short term and long term. This plague has more recently been joined by war, Russia-NATO, with possible nuclear action threatening. In addition other major wars are very possible involving aggressive nations of China, North Korea, Iran and recent activity in much of Africa. One needs to watch as well for civil wars. In addition another pandemic can arise at any time. God's word tells us each of the first three plagues will continue to grow and become more severe right up to the start of the Tribulation. Currently three years have passed and we are in the fourth year of this first Plague. This plague is marked as starting with a major marker being early 2020. Thus the countdown to the start of the Tribulation is underway. The time in years will be from 2020 up to the Start of the Tribulation that will be clearly announced. The length of this time is important, as if we can estimate it fairly accurately it tells us how short is the time remaining to the test of God followed by the start of the Tribulation, time to prepare ourselves.

The second plague is that of **world famine**. The Bible defines this as a day's wages for a day's food. Or the price of food continually rises along with shortages. This plague started in 2022 with a few select nations experiencing it and the major world nations setting the stage in actions of promotion of food shortage. The main factor that contributes to famine is erratic weather that is controlled by the LORD. Factors that affect the erratic weather are changes in the sun's behavior as having direct effects on ocean temperatures along with eruption of lava in the depths of the ocean raising the temperature of the oceans. These have been occurring recently, the earth is groaning. Normally if you watch mainstream news media, you will not be aware of much of what is occurring. Note that the plagues act together, one promotes effects of the other. Famine is now in it's second year and has become recognized as of major importance worldwide. Drought, fires, flooding, crop failures and reduced harvests, all occurring as a result of God's control. These are combined with man burning down food processing facilities, high costs and restricted fertilizer use, farm lands taken out of service, culling of cattle and livestock, and insane worldwide government actions directed at saving the planet from the changing climate. Famine is well underway and will continue to become more severe right up to the start of the Tribulation.

The third plague has not yet started, it is **death and hell** with major numbers of people dying. It has been hinted at as seen from the adverse effects of the mRNA gene shot. A compromised immune system as a result of the mRNA shot will likely lead to accelerating death rates as time goes forward. Initially the research on ferrets for mRNA developed for SARS-1 resulted in the ferrets dying later from an altered immune system. So mRNA could never receive

Government approval to be given to people. Rather it needed Government emergency authorization to use this experimental new therapy on people. What is seen to date are stringy protein clots in arteries and veins in a number of people being embalmed as well as healthy young people suddenly dropping dead. In addition unusual fast acting rare cancers are increasing. When the third plague starts there will be an exponential growth in deaths from all causes, war, anarchy, famine, and disease. To put this in perspective the yearly deaths worldwide from all causes is roughly 70 million. Once the third plague starts there will be a death rate rising to a cumulative maximum of 2,000 million people at the start of the Tribulation. All three plagues will be continually growing and acting together right up to the start of the Tribulation.

3. Importance of the Number 7

A previous study examined the importance of various markers that God uses to note specific events of significance. It was found that the number seven dominated. It occurred by itself and also in various multitudes. New moons were also used as well as Jubilee years and thousand years.

God is totally **logical** and mathematical. Without any doubt the number seven is the major number that God uses. Note that a Jubilee year is seven Shemita cycles of seven years each. Thus the counting is based upon a 49 year cycle.

There are two momentous events of the end times. The first is Yeshua's resurrection and the second is Yeshua's return to gather the remainder of His Saints and set up the Millennium Kingdom. It is extremely likely that both of these events are marked by God as occurring in a Jubilee year. Complexity of accurately in counting years occurs from the difference of God's counting in using 360 days to a year with occasional adjustments based upon new moons as well as with uncertainty of the year that Yeshua was crucified. By setting Yeshua's crucifixion and resurrection as occurring in a Jubilee year, being thought as 30 AD, then projecting it forward and adjusting for 360 day years and the next Jubilee falling in a time of around 2,000 years from Yeshua's resurrection and still being in our future, results in our year 2036. There is some error in this calculation of possibly one or two years in either direction. The 2,000 years comes from a depth of understanding of the Feasts of the LORD. What we have is a reasonable rough date as a target of around 2036 for Yeshua's return and the end of the Tribulation period. This gives us a rough target date of 2029 for the start of the Tribulation.

The counting of a new year starts in March/April with the new moon and is Nisan 1. This command was given to the Israelites at Mount Sinai. Again based upon the Feasts of the LORD, we will look for the second coming and also the start of the Tribulation to occur sometime in May/June.

We now need to fit what we see occurring in the world today as fulfilling prophecy. This requires that one is able to recognize that God's end time plagues started in 2020 with peace being taken from the whole world. The first plague ran 3 years and was joined in the third year by the second plague starting, being famine. We are now in the second year of famine and it is quickly growing this year. If the timing sequence that we have seen so far continues, then we would expect to see the third plague start next year in 2024. Once it starts it would most likely run for three years. Then all three would likely continue to run together for a further 1 to 3 years. This would

result in 2027-2029 to likely be the start of the Tribulation. We need to watch and adjust according to what we see taking place in the world. Watch and pray always.

There is one other set of scripture that came to light recently, this being found in the beginning of Matthew. It is counting the generations from Abraham to Yeshua. It is given as follows;

Mat 1:17 So all the generations from Abraham to David *are* fourteen generations; and from David until the carrying away into Babylon *are* fourteen generations; and from the carrying away into Babylon unto Christ *are* fourteen generations.

What stands out is first the theme is constant and that there are three groups of 14 generations with specific time markers for the groups. This is three groups of two sevens in each. This strongly speaks to the end time plagues of God. The end time plagues are a constant theme, the wrath of God coming down on the entire world. These end time plagues are divided into two distinct groups of plagues. The second group, the Tribulation period, is 7 years long. For the first group of three plagues, the time in years is not given. Using the progression from Matthew, it is very likely the first group of plagues takes place over 7 years. This gives two sets of 7 each or 14 years for all the plagues of God coming down upon the world. This means that after the third plague has run for three years, then likely all three plagues would run together for one more year.

Using the importance of two sevens would result in the first group of three plagues occurring over 7 years, starting in 2020 and ending in 2027. This in turn would result in Yeshua's second coming to occur in 2034.

This is not certain, but based upon the importance of the number 7 to God, it appears to be extremely likely and fits in with the relative approximate dates arrived at from other analysis. It does suggest that the start of the Tribulation will not occur before 2027, but still could occur one or two years later. It is better to be conservative and look at 2027 as being the critical date, rather than look to a date beyond and not be ready when the event occurs. The virgins who did not have oil in their lamps, typifies those of today who walk as in the times of Noah.

4. Why is Recognition of the Start of the Tribulation so Important

If the Tribulation and wrath of God was far in the future, then those in the 6 groups of mainstream Christian Churches of today would likely be alright if they walked in the way the pastors taught. They would secure their salvation as one of the masses at the second resurrection. However Judgment has changed in the end time, it changes when the Tribulation begins. God offers a one time great reward to those that pass His Test. They are given Saint status by placing all their trust in God and going through the Tribulation. At the same time, those that fail the test by placing their trust in the evil world, lose their salvation, salvation they would likely have obtained if they died in other times, or if they die before the Tribulation test is given. God maintains a balance of reward and punishment, so the scales of justice are kept in balance.

Here is the problem, the pastors in the six groups of Christian Churches of today walk in the same manner as their congregation's, they all walk as in the times of Noah. The pastors learned in a classroom taught by others that followed a Church Doctrine, one set by a group of men. It has many errors that they do not recognize, so the pastors follow the errors in Church Doctrine. This means they do not truly obey the commands God gave man. This leads to a dormant Holy Spirit in them, Act 5:32. They say that they walk the same as the early congregations, but scripture shows us that they do not, Act 21:18-20. They say Yeshua did everything for us, He did not. They say the Torah was done away with, it was not. They say they follow Yeshua, they do not. They say the Feast Days were done away with, they are not. All of this means that they will never be able to come to an understanding of end time prophecy. The pastors as well as their congregations will take the test that will come as a sudden shock to all. Many of the pastors will fail the test, the same as generally all of their congregations. Relying upon pastors is a case of the blind being lead by the blind.

The test is called a Temptation in God's word. It is a pass or fail only. Any one that compromises on God's commands will fail. To pass one must put all their trust in the LORD, meaning for those that do, they will most likely be killed as a martyr.

Therefore it is important to recognize just how close we are to the start of the Tribulation. One needs to prepare in their mind and their relationship with God, for this will make a great difference on how they go forth in order to pass the test.

In scripture of the New Testament, we are told by Yeshua and the Apostles to beware of deception in the world and in the Churches. This warning was given 17 times, making it extremely important. Also Yeshua tells us that in the end times, deception will grow worse. This has never been taken seriously by either pastors or their congregations. Today the mainstream news bombards everyone with deception, world leaders do the same, health authorities do the same, social media does the same. Nearly everyone is asleep, few really see what is going on, rather they walk as sheep. Taking the mRNA shot was a warm-up test by God, where you placed your trust in the evil world or placed your trust in God.

Do you know that the nano technology for marking people with a QR code placed beneath the skin has been developed at MIT and is nearly ready to be used. It cannot be counterfeited. Do you know the major world countries are gaining experience with the Central Bank Digital Currency, CBDC, which is the control that will be used to allow people to buy and sell. Do you know that three red heifers without blemish were shipped from the USA to Israel a few months ago. These are for purification in order to start the animal sacrifices again by the Orthodox Jews. Do you know that the altar for sacrifices is made and can be assembled on the Temple Mount in a few hours. Do you know that Levites are trained in order to carry out the Temple daily animal sacrifices. All of these are end time activities that will be used shortly. If you did not know these items, then you walk in deception, not being able to see how end time prophecy is being fulfilled in today's time.

5. Summary

For those who are awake and are able to recognize the first 2 plagues of the end time being currently underway, they know that the Tribulation starting is very close, being very few years.

With our Heavenly Father everything is organized and logical. God likes the number 7 above all numbers. The Biblical meaning of the number 7 is perfection or completion as occurred in the creation of the world in 6 days and resting on the seventh day, hence the seventh day Sabbath and seventh day cycle. The time of man walking on the earth, going his way, is roughly over 6,000 years. It shortly comes to an end with the last 1,000 years being man walking forward in total obedience to the Torah. The Millennium completes 7,000 years of man living on the earth.

What we see from scripture and analysis is that the start of the Tribulation is very close, most likely 4 years from now, occurring in 2027. Very few Christians are awake and recognize what is coming and drawing closer with each remaining year. Why is it so important ? Because judgment has changed with a one time offer by God, of a great reward to all that pass the test.

Is your Faith and Trust in God strong enough to take the path of being a martyr ? If not you had better start working on it as few years remain for when you will need to make the choice.
